# Who we are

*“The Cryptographic Module User Forum (CMUF) mission is to provide a voice and communications channel between the community of UNCLASSIFIED cryptographic module (CM) and UNCLASSIFIED cryptographic algorithm developers, vendors, test labs and other interested parties, and the various national, international, and multi-lateral organizational committees, schemes, and policy makers. In order to further the CMUF mission, our objectives are to improve and promote CM usage and resolution of issues and concerns ...”*

# Accomplishments

- Contribute to the CMUF Forum discussions
- Join Monthly CMUF Membership Calls
- Contact me to gain access to the CMUF Online Forum

## About Matt:

Matthew Keller is Corsec Security, Inc.'s Senior Program Manager. Mr. Keller manages facets of the company's FIPS & Common Criteria consulting business units. For 18 years Corsec has assisted companies through the security certification and validation process. Corsec is a privately-owned company that partners with organizations worldwide to strengthen product security, improve brand reputation, and increase financial returns. Corsec's broad knowledge safeguards against common pitfalls and thwarts delays that derail most security certification projects.

The logo for Corsec features the word "Corsec" in a white, bold, serif font. The text is centered within a white, thick, curved line that forms an open oval shape. The background is a solid blue color with a subtle, intricate pattern of thin, white, curved lines that create a sense of depth and movement.
